Kyoto: The Cultural Heart of Japan. Kyoto is special because it reigned as the national capital of Japan for more than 1000 years. Seventeen UNESCO World Cultural Heritage Sites are situated in a cityscape dominated by 2000 temples and shrines. The rich heritage is also reflected in modern technical advances of Japanese frontier and leading industries. You and your family will be welcomed with all the hospitality of the cultural heart of Japan.

Submission of Papers: Prospective authors are invited to submit full-length, four-page papers, including figures and references, to the ICASSP Technical Committee. All ICASSP papers will be handled and reviewed electronically. The ICASSP 2012 website will provide you with further details. Please note that the submission dates for papers are strict deadlines.

Notice: IEEE Signal Processing Society enforces a "no-show" policy. Any accepted paper included in the final program is expected to have at least one author or qualified proxy attend and present the paper at the conference. Authors of the accepted papers included in the final program who do not attend the conference will be subscribed to a "No-Show List", compiled by the Society. The "no-show" papers will not be published by IEEE on IEEEXplore or other public access forums.

Tutorial and Special Session Proposals: Tutorials will be held on March 25 and 26, 2012. Brief proposals must include title, outline, contact information, biography and selected publications for the presenter, a description of the tutorial, and material to be distributed to participants. Special sessions proposals must include a topical title, rationale, session outline, contact information, and a list of invited speakers. Tutorial and special session authors are referred to the ICASSP 2012 website for additional information regarding submissions.
